

WINTER SONG By Allan "Dr Eclectic" Markin © October 28, 2013

Seasons come; seasons go
Sometimes it's hot; sometimes it snows
I left the window open
Love's gone cold

There was a time we felt the heat
From our head down to our feet
Now all we have is rain
And only ourselves to blame

Chorus: Where has love gone?
How can I carry on
Without you?
Maybe I was blind
Maybe I was unkind
To you

I didn't see it coming, it just sneaked up on me
Left me to live in this misery
I left the window open
Now love's gone cold

I left the window open, good times are gone
Now all I have is this... winter song
I left the window open
Bad times have come in

Chorus: Where has love gone?
How can I carry on
Without you?
Maybe I was blind
Maybe I was unkind
To you

Repeat first verse to end.
